1.2.1. Pass or Fail

01:11

Write a Python program that accepts the number of courses and the marks of a student in those courses.

The grade is determined based on the aggregate percentage:

- If the aggregate percentage is greater than 75, the grade is Distinction.
- If the aggregate percentage is greater than or equal to 60 but less than 75, the grade is First Division.
- If the aggregate percentage is greater than or equal to 50 but less than 60, the grade is Second Division.
- If the aggregate percentage is greater than or equal to 40 but less than 50, the grade is Third Division.

Input Format:

- The first input will be an integer , the number of courses.
- The second input will be integers representing the marks of the student in each of the courses, separated by a space.

Output Format:

If the student passes all courses:

- Print the aggregate percentage (formatted to two decimal places).
- Print the grade based on the aggregate percentage.

If the student fails any course (marks < 40 in any course), print:

- "Fail".

Note:

- **Aggregate Percentage:** Average performance across all courses, calculated by summing all marks and dividing by the number of courses.

```
# Input number of courses
```

```
n = int(input())
```

```
# Input marks
```

```
marks = list(map(int, input().split()))
```

```
# Check if any subject is failed
```

```
if any(mark < 40 for mark in marks):
```

```
    print("Fail")
```

```
else:
```

```
    # Calculate aggregate percentage
```

```
    aggregate = sum(marks) / n
```

```
# Print aggregate percentage formatted to two decimal places
```

```
print(f"Aggregate Percentage: {aggregate:.2f}")
```

```
# Determine grade
```

```
if aggregate > 75:
```

```
    grade = "Distinction"
```

```
elif 60 <= aggregate < 75:
```

```
    grade = "First Division"
```

```
elif 50 <= aggregate < 60:
```

```
    grade = "Second Division"
```

```
elif 40 <= aggregate < 50:
```

```
    grade = "Third Division"
```

```
print(f"Grade: {grade}")
```

Average time
0.006 s
6.20 ms

Maximum time
0.017 s
17.00 ms

5 out of 5 shown test case(s) passed

5 out of 5 hidden test case(s) passed

Test case 1 17 ms Debug

Expected output

4

55 65 78 89

Aggregate Percentage: 71.75

Grade: First Division

Actual output

4

55 65 78 89

Aggregate Percentage: 71.75

Grade: First Division

Test case 2 7 ms Debug

Expected output

5

56 78 97 86 93

Aggregate Percentage: 82.00

Grade: Distinction

Actual output

5

56 78 97 86 93

Aggregate Percentage: 82.00

Grade: Distinction
