1.2.4. Pattern - 2

01:10

Write a Python program to print a right-angled triangle pattern of numbers.

Input Format:

- The input is an integer, representing the number of rows in the pattern.

Output Format:

- The output should display the pattern of numbers separated by space, with each row containing increasing numbers starting from 1 up to the row number.

Note:

- Refer to the displayed test cases for the sample pattern.

```

n = int(input())
for i in range(1, n + 1):
    for j in range(1, i + 1):
        print(j, end=" ")
    print()

```
